

Veterinary - On Farm Trials

2026-27

1. Assessment of efficiency of Pregnancy diagnosis kits for pregnancy confirmation in dairy animals.
2. Assessment of performance of herbal extract for managing ectoparasite infestation in sheep and cattle.
3. Assessment of effect of supplementation of moringa leaf meal on body weight gain in weaned lambs
4. Assessment of efficiency of sex sorted semen through artificial insemination in dairy animals

2025-26

1. Assessment of performance of herbal extract for managing ectoparasite infestation in sheep and cattle.
2. Assessment of improved poultry breeds as backyard poultry in the rural areas
3. Assessment of effect of supplementation of moringa leaf meal on body weight gain in weaned lambs
4. Assessment of efficiency of sex sorted semen through artificial insemination in dairy animals

2024-25

1. Assessment of suitable feeding methods to improve milk quantity and quality (composition) in dairy cattle.
2. Assessment of improved poultry breeds as backyard poultry in in the rural areas.
3. Assessment of efficiency of coated vitamins and chelated trace minerals in improving the reproductive efficiency of dairy cattle.
4. Assessment of efficiency of sex sorted semen through artificial insemination in dairy animals

2023-24

1. Assessment of suitable feeding methods to prevent acidosis in dairy animals to improve milk quality and milk quantity
2. Assessment of improved poultry breeds as backyard poultry in in the rural areas
3. Assessment of efficiency of coated vitamins and chelated trace minerals in improving the reproductive efficiency of dairy cattle.
